FROM Dimension Cable Services

TO Corporate Office

P.03

DIMENSION CABLE CHANGES WITH THE TIMES

Dimension Cable is committed to providing high-quality programming and professional service at competitive prices. In keeping with this commitment, we will offer a whole new way to buy cable television programming networks. Beginning August 31, 1993 we'll have new prices and packages, a revised channel line-up and a new billing statement. Some of these changes are a result of new federal legislation and many are because we've been listening to you tell us what you want from your television service.

NEW PRICES AND PACKAGES

We're repricing most of our programming options, equipment and other charges.

The Dimension level of service will now offer some of the popular programming networks, previously available in the Preferred Service, at one new low price. And, for Basic Service, Dimension Service and new Preferred Dimension package will have a new name - **Preferred Dimension Plus**.

Set-top converters and other equipment charges will now be priced separately from programming services, providing increased flexibility to select the equipment that works best with your service. For example, conversion on primary outlets will now appear on your statement as a separate charge.

DIMENSION CABLE CHANNEL LINE-UP AS OF AUGUST 31

Dimension Cable will change the channel line-up on August 31, due to federal requirements.

COMPLYING WITH NEW FEDERAL LAW

OUR COMMITMENT TO YOU

Due to recent legislation, there are new rules governing cable television pricing and programming. Our goal is to reshape your service options in such a way that benefits you and provides more choice and selection, while still complying fully with the rules. We'll do our best to minimize the number of times we need to make channel and programming changes and we'll continue to keep you informed of our progress. In the meantime, we appreciate your patience and look forward to providing you and your family with the quality programming and professional service you've come to expect from Dimension Cable.

DIMENSION CABLE CHANGES WITH THE TIMES

Dimension Cable is committed to providing high-quality programming and professional service at competitive prices. In keeping with this commitment, we will offer a whole new way to buy cable television programming networks. Beginning August 31, 1993 we'll have new prices and packages, a revised channel line-up and even a new billing statement. Some of these changes are a result of new federal legislation and many are because we've been listening to you tell us what you want from your television service.

NEW PRICES AND PACKAGES

We're repricing most of our programming options, equipment and other charges.

The Dimension level of service will now offer some of the popular programming networks, previously available in the Preferred Service, at one new low price. And, our Basic Service, Dimension Service and new Preferred Dimension package will have a new name - **Preferred Dimension Plus**.

Set-top converters and other equipment charges will now be priced separately from programming services, providing increased flexibility to select the equipment that works best with your service. For example, converters on primary outlets will now appear on your statement as a separate charge.

NEW BILLING STATEMENT

YOUR SEPTEMBER STATEMENT WILL LOOK DIFFERENT FOR TWO REASONS:

- The new prices and programming packages will be reflected in your September statement. Charges will be pro-rated back to August 31, the effective date of the new prices, so your total for September will be an odd amount. Your October statement will reflect your service charges and what you can expect to pay each month.
- We've given the statements a new look, making it easier to read. The new format is a result of customers telling us how they want their statement to look. A complete explanation of how to read your bill will be included in your September statement.

CHANNEL LINE-UP CHANGES

Mark your calendars for August 31. That's when the channel line-up will change to accommodate these new service options. We regret any inconvenience.
